Let us introduce you to... # FELT-over.

FELT-over. è un feltro che nasce dalla volontà di creare un materiale dall'estetica originale e unica, ma dall'attitudine 100% etica: prodotto al termine del ciclo vita dei materiali Slalom tramite un processo di rigenerazione sostenibile, questo tessuto è un caleidoscopio di tinte composto da frammenti dei nostri scarti di produzione. Una novità 0% WASTE!

FELT-over. is a felt that comes from the desire to create a material with an original and unique aesthetic, but with a 100% ethical attitude: produced at the end of the life cycle of Slalom materials through a sustainable regeneration process, this fabric is a kaleidoscope of tints coming from fragments of our production waste. A 0% WASTE news!

PEOPLE FRIENDLY

Prodotto a bassa emissione chimica per una migliore qualità dell'aria.
- Greenguard Gold certified
- Global Recycled Standard
- VOC conforme a tutti gli standard UE

Recyclable product respecting the environment for a better indoor air quality.
- Greenguard Gold certified
- Global Recycled Standard
- VOC compliant to all EU standards

BUILDING FRIENDLY

Adatto per certificazione architettonica per edifici Breeam, Leed, Well e Fitwel.

Suitable fot Breeam, Leed, Well and Fitwel building certifications.

ACOUSTIC COMFORT

Valutazione secondo le caratteristiche specifiche dei diversi tessuti di cui il materiale è composto.

Rating according to specific characteristics of each different material in the composition.

EASY CLEANING

Usare con regolarità l'aspirapolvere a beccuccio liscio, oppure utilizzare spazzole a setole morbide o detergenti professionali per imbottiti.

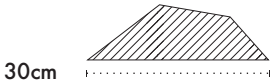
Use regularly the vacuum-cleaner with smooth spout, or brushes with soft bristles, or upholstered professional cleaners.

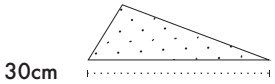
DESIGN COMMITMENT

COLOUR AND GEOMETRY MATCHING

Tessuto realizzato dalla combinazione casuale di scarti della nostra produzione, di ogni colore e tessuto che vengono rigenerati in un nuovo textile. La forma del disegno dipende dalla dimensione e geometria degli scarti. Unica regola, il lato di ogni colore non deve superare i 30 cm. Contattaci per lo studio dei colori!

Fabric made from the random combination of waste from our production, in every color and fabric that are regenerated into a new textile. The shape of the design depends on the size and geometry of the scraps. The only rule is that the side of each color must not exceed 30 cm. Contact us for the color study!





POINT OUT!

Il feltro è caratterizzato dalla presenza di piccoli punti, legati al processo di cardatura del feltro tinto in fibra. Le impurità sono più evidenti su feltri chiari e a tinta unita.

Felt is characterized by the presence of small dots, linked to the carding process of the fiber-dyed felt. Impurities are most noticeable on light-colored and solid colored felts.

CUSTOMIZABLE

Like the look? Create you own!
Il tessuto è personalizzabile nei colori unendo scarti e nuovi tessuti sostenibili.

Like the look? Create you own!
The fabric can be customized in colors by combining scraps and new sustainable fabrics.

What's behind?

Sostenibilità . Comfort . Design

La missione di Slalom è quella di partecipare attraverso materiali dalle altissime qualità innovative e tecniche alla creazione di un ambiente sano, dal comfort acustico eccezionale e progettato su misura per le persone. Lo fa attraverso l'impegno per la protezione dell'ambiente e della salute dell'uomo, sviluppando un'ampia gamma di prodotti e soluzioni tailor-made investendo costantemente in funzionalità, durabilità e riciclo.

Sustainability . Comfort . Design

An important mission for Slalom, in compliance with the surrounding environment and people's health. The commitment to protect the environment and human health is a priority in our path to sustainability.
Slalom develops its range from the idea that each product has use, durability and recycling as its key.
